Objective

Passionate and dedicated BCA final-year student with a strong foundation in Java and full-stack web technologies. Seeking a Java Developer position to leverage my expertise in Core Java, Object-Oriented Programming, and modern web frameworks to build dynamic and scalable applications.

Education

- Bachelor of Computer Applications (BCA)** *Maulana Azad University, Jodhpur | Expected Graduation: 2026*
- **Current SGPA:** 9.0 (Up to 4th Semester)
 - **Relevant Coursework:** Java Programming, Database Management (MySQL), Web Development, Data Structures.
- Higher Secondary (12th)** *Maulana Abul Kalam Azad Muslim Senior Secondary School, Jodhpur | 2023*
- **Board:** RBSE **Percentage:** 83%
- Secondary (10th)** *Maulana Abul Kalam Azad Muslim Senior Secondary School, Jodhpur | 2021*
- **Board:** RBSE **Percentage:** 87%

Technical Skills

- **Programming Languages:** Java, C, C++, Python
- **Web Technologies & Frontend:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, AJAX, jQuery, Angular.js, React.js
- **Backend Technologies:** JSP, Servlets, JDBC, Spring, Hibernate, Node.js, Express.js
- **Databases:** MySQL, MongoDB
- **Full-Stack Frameworks:** MEAN Stack, MERN Stack, Laravel
- **Tools & Platforms:** Git, GitHub, RESTful APIs
- **Core Concepts:** Object-Oriented Programming (OOP), MVC Architecture, Responsive Web Design

Experience

PHP Web Developer *Marwar Computer Centre · Part-time* Mar 2026 – Present · 1 mo · Jodhpur, Rajasthan, India (On-site)

- **Back-End Development:** Designing, developing, and maintaining dynamic server-side web applications using PHP.
- **Database Management:** Integrating back-end logic with databases for smooth data flow and efficient query execution.
- **System Optimization:** Troubleshooting issues and optimizing code to improve overall website performance and user experience.

Java Development Intern *Codveda Technologies · Internship* Jan 2026 · 1 mo

- **Full-Stack Development Learning:** Gained hands-on experience in building robust web applications using Java, JSP, Servlets, and Hibernate.
- **Database Integration:** Designed and managed relational databases using MySQL to store and retrieve application data efficiently.
- **Project Execution:** Successfully developed full-stack applications, including a blogging website and a notes-making web app, applying MVC architecture and backend logic.

Projects

Tech Blogging Platform | *Java, JSP, Servlets, Hibernate, MySQL*

- ✓ **Built** a dynamic tech blogging platform enabling users to effectively create, publish, and manage technical articles.
- ✓ **Implemented** a robust backend architecture using **Hibernate ORM** and **MySQL** for secure data persistence and efficient request handling.

Notes Management Application | *Java, JSP, Servlets, Hibernate, MySQL*

- ✓ **Developed** a secure and scalable web application for seamless note-taking and task management.
- ✓ **Integrated** the frontend with a relational **MySQL** database using **Hibernate ORM** to ensure reliable data storage and retrieval.

Multi-Client Chat Application | *Core Java, Sockets, Multithreading*

- ✓ **Engineered** a real-time, multi-client chat application utilizing **Java Sockets** for continuous and seamless network communication.
- ✓ **Implemented multithreading** to efficiently handle concurrent user connections and message broadcasting without performance bottlenecks.

Student Management System | *Java, JSP, JDBC, MySQL*

- ✓ **Designed** a comprehensive web-based portal to streamline student data management and administrative tasks.
- ✓ **Utilized JDBC** for robust database connectivity, executing secure CRUD operations to manage student records in **MySQL**.
